

# Cumulative Index 1988

## Volume 15

---

<b>January</b>	<b>RHINOPLASTY, pages 1-168</b>
<b>April</b>	<b>OCULOPLASTIC SURGERY, pages 169-340</b>
<b>July</b>	<b>GENITOURINARY SURGERY, pages 341-516</b>
<b>October</b>	<b>PLASTIC AND RECONSTRUCTIVE BREAST SURGERY, pages 517-726</b>

---

*Note:* Page numbers of article titles are in boldface type.

Abscess(es), following blepharoplasty, 327-329  
Adhesives, silicone, 518-519  
Adolescents, hypospadias repair in, 401-402  
Aesthetics, nasal reconstruction and, 155-166  
AIDS, sigmoid vaginoplasty and, 469  
    test for, in transsexualism, 473  
Airway obstruction, nasal, due to inferior turbinate hypertrophy, diagnosis and treatment of, 11-13  
    treatment of, basic philosophy of, 11-12  
Alar deformities, rhinoplasty in, 34  
Alar rim deformities, resections in, 149-154  
Amblyopia, and ptosis, 170  
Anesthesia, for pediatric hypospadias repair, 400  
    for rhinoplasty, 15-17  
    for transaxillary subpectoral augmentation mammoplasty, 559  
    in hypertrophy of inferior turbinate, 12  
    local, for upper blepharoplasty, 290-291  
Angiomas, traumatic, following blepharoplasty, 332  
Anophthalmos, congenital, 170  
Antibacterials, to reduce capsular contracture, 528  
Antrostomy, Caldwell-Luc, in orbital fractures, 240  
Anxiety, of parents, perception of, by pediatric patient, 402  
    of patient, in pediatric hypospadias repair, 401  
Aponeurosis, resection, in ptosis, 177-179, 188, 189  
Areola reconstruction, following breast reconstruction, 698  
Arm, anatomy of, 425  
Arm flap, radial, in reconstruction of penis, 425-430, 439  
    incorporation of clitoris into, 426  
    technique for, 425-429  
    transplantation of, to penis, 426  
Aspirin, common products containing, 313  
Astigmatism, corneal, following blepharoplasty, 332-333  
Augmentation mammoplasty, expansion, 587-593  
    advantages of, 587  
    discussion of, 592-593  
    technique of, 587-592  
    history of, 549-550  
    mammography following, 553  
    polyurethane-coated prosthesis in, 554  
    retromuscular augmentation in, 550-553  
    retropectoral augmentation in, 553  
    retropectoral versus retropectoral implantation for, 549-553

subpectoral, primary selective pectoral neurectomy in, 608-609  
technique for, 550-552  
transaxillary subpectoral, 557-568  
    anesthesia for, 559  
    complications for, 566-567  
    limitations of, 566  
    operative planning for, 558-559  
    patient evaluation for, 557-558  
    postoperative care following, 561-563  
    preoperative marking for, 559  
    results of, 563-566  
    surgical technique for, 559-561  
Axilla, structures of, 560

Bleeding, in blepharoplasty, loss of vision following, 309-314  
    prevention of, 311-314  
    orbital and periorbital, in orbital fractures, 241-242  
Blepharochalasis syndrome, 176  
Blepharophimosis syndrome, 170, 262  
Blepharoplasty, abscess following, 327-329  
    asymmetry of palpebral fissure following, 330  
    bleeding in, loss of vision in, 309-314  
    prevention of, 311-314  
    bowing of cicatricial lower eyelids following, 316-322  
    cellulitis following, 327-329  
    chalazia formation following, 332  
    complications of, 309-335  
    corneal astigmatism following, 332-333  
    dermal pigmentation following, 334  
    diplopia following, 327  
    dysfunction of lacrimal system following, 322-327  
    festoons following, 333-334  
    global perforation in, loss of vision following, 314  
    impaired ocular and extraocular motility following, 327  
    inappropriate fat resection in, 329  
    incisional scarring following, 333  
    lower lid, skin-muscle flap, 305-308  
        with skin flap and muscle split, 299-304  
    malposition of eyelids following, 314-316  
    skin/muscle excision for, 291  
    suture tunnels following, 330-332

**Blepharoplasty (Continued)**  
 traumatic angiomas following, 332  
 upper, cosmetic, 289-297  
     in ptotic lacrimal gland, 295  
     local anesthesia for, 290-291  
     orbital fat excision in, 291-292, 294  
     postoperative care in, 296-297  
     premedication for, 289  
     preoperative evaluation for, 289  
     results of, 297  
     skin incision for, 291  
     skin markings for, 289-290, 292-293  
     submuscular fat excision in, 291, 293  
     suturing in, 295-296

**Blindness.** See *Vision, loss of*.

**Bone(s),** nasal, deformity of, in saddle deformity, 84  
 surgery of, in chin augmentation, 141

**Bone graft(s),** for reconstruction in saddle deformity, 88  
 harvesting of, for use in saddle deformity, 88-90  
 immobilization of, in saddle deformity reconstruction, 90-92  
 in post-cleft reconstruction, 81  
 recipient site preparation for, for use in saddle deformity, 90  
 rib, for nasal augmentation, 58-60, 61  
 shaping of, for use in saddle deformity, 90

**Breast(s),** aesthetic and reconstructive surgery of, informed consent in, 541-548  
 anatomy of, 602-604  
 apocrine metaplasia of, 657  
 atypical epithelial hyperplasia of, 660-661  
 benign changes in, breast cancer and, 655  
     terminology for, 656  
 blunt duct adenosis of, 656, 657  
 cancer of, biopsy proven, total mastectomy in, 680-681  
     correlated with breast size, 662  
     risk correlated with age and family history, 659-662, 665  
     risk factors for development of, 677-680  
 cystic duct dilation of, 655-656  
 ductal carcinoma in situ of, 663  
 ductal ectasia of, 658  
 epithelial hyperplasia of, 658-660  
 fibroadenoma of, 657  
 hard, in capsular contracture, 521-532  
 lobular carcinoma in situ of, 662-663  
     and intraductal carcinoma of, compared, 680, 681  
 nonproliferative disease of, 655-656  
 proliferative disease of, 658-663  
 ptosis, mammoplasty in, 630, 633-634, 635, 636  
     minus plus mastopexy in, 597, 598, 599  
 radial scar of, 658, 659  
 sclerosing adenosis of, 657-658  
 surgery, plastic and reconstructive, 517-726  
 volume and skin envelope of, central pedicle free-hand technique for alteration of, 613-625

**Breast implant(s),** distortion, from retromuscular augmentation, 525, 526, 527  
 foam-covered, 533-539  
     capsular contracture in, 535-537  
     carcinogenicity and, 538  
     foreign body reaction to, 533-537, 538  
     infection in, 537-538  
     materials and methods of research on, 533  
     results and discussion of research on, 533-538  
 polyurethane foam-covered, 526, 533-539  
 saline-filled, 525-526  
 silicone gel, encapsulated, 522, 523  
 sponge, encapsulated, 522, 523  
     seroma formation around, 522  
 submammary relocation of, 609, 611  
 subpectoral, complications of, 610  
     distortion of, 601-611  
     problems associated with, 601-602  
     results of, 609-610  
 Breast patient, high-risk, pathologic considerations in, 655-665  
 Breast reconstruction(s), analysis and long-term results of, 689-701  
     late results of, 698-700  
     latissimus dorsi, discussion of, 719-725  
     unsatisfactory, capsular "deformation" as cause of, 717-726  
 materials and methods for, 689-690  
 patient selection and information for, 689-693  
 principles of, 693-696  
 results of, 696-698  
 symmetry of, 699-700  
     transverse abdominal island flap for, 703-716  
 Buck's fascia, structures in, 405  
 Burns, genital, emergency therapy of, 439-440

**Canalicular lacerations, 204-206**

**Cancer(s),** of breast. See *Breast(s), cancer of*  
 reconstruction of medial canthus in, 256-258

**Canthus, lateral, rounded, following blepharoplasty, 330**  
 medial. See *Medial canthus*.

**Capsular contracture, classification of, 529, 530**  
 established, correction of, 528-529  
 etiologic theories of, 524  
 following transaxillary subpectoral augmentation mammoplasty, 563-566  
 hard breasts, soft data, 521-532  
 history of, 522-524  
 in foam-covered breast implants, 535-537  
 in polyurethane-covered mammary prostheses, 579  
 incidence of, 525, 526  
 onset of, 525  
 reduction of incidence of, 525-528  
     transverse abdominal island flap in, 698-699

**Capsular "deformation", as cause of unsatisfactory latissimus dorsi breast reconstruction, 717-726**

**Capsule formation, following mastectomy, 717, 718**

**Capsulotomy, closed, gel extruding from nipple following, 524**  
 open, in established contracture, 529

**Carcinogenicity, foam-covered mammary implants and, 538**

**Carcinoma(s), basal-cell, recurrent, oculoplastic surgery in, 285**  
 in situ, of breast, 662-663  
 squamous-cell, of oropharynx, multidisciplinary approach in, 268-272  
     recurrent, oculoplastic surgery in, 284, 286

**Cartilage(s), augmentation, in saddle deformity, 88**  
 removal of, in open rhinoplasty, 101-103  
 upper lateral, in rhinoplasty, 23-27

**Caustic burns, to genitalia, treatment of, 440**

**Cellulitis, following blepharoplasty, 327-329**

**Central pedicle free-hand technique, anatomic vascular basis of, 613, 614**  
 complications of, 617  
 experience using, 617  
 for alteration of volume and skin envelope of breast, 613-625  
 preoperative markings for, 613-614, 615  
 results of, 617-625  
 technique of, 613-617

Cerebrospinal fluid, leakage of, in orbital fractures, 241

Cervix, carcinoma of, recurrent, 449

Chalazia, following blepharoplasty, 332

Chemical burns, to genitalia, treatment of, 440

Chest, left, intraoperative topography of, 562  
  subpectoral structures of, 561

Chest wall defects, transverse abdominal island flap in, 704

Child(ren), fractures of orbit in, 251  
  *hypospadias in. See also Hypospadias, in pediatric patient.*  
    1 to 3 years of age, 401  
    return of normalcy for, 403  
    3 to 6 years of age, 401

Chin, 125-137  
  anatomy of, 125, 126  
  augmentation of, 139-142  
  clinical evaluation of, 125-128, 129  
  deformity of, treatment of, 128-136  
  reduction of, 142-143  
  skeletal anomalies of, treatment of, 128-136  
  soft-tissue surgery of, 136

Chordee, causes of, 405  
  correction of, in epispadias/exstrophy, 384-385  
    in hypospadias repair, 345  
  definition of, 405

flip-flap hypospadias repair in, 346-348, 349

persistent, following hypospadias repair, 378

severe, following genital trauma, 434  
  skin grafts in, 418

Circumcision, complicated, counseling in, 460

Cleft lip, nasolabial repair and, 73-82

Clinical nurse specialist, in pediatric hypospadias repair, 403

Clitoris, incorporation of, into radial arm flap, 426

Colles space, hematoma in, 431, 432

Columella. *See Nose, columella of.*

Columellar-labial junction, 6

Computed tomography, in orbital neoplasm, 266

Computerized scanning, in orbital fractures, 212

Conjunctivodacryocystorhinostomy, 203

Consent form, for informed consent, 543-544

Cosmetic surgery, upper blepharoplasty, 289-297

Cowden's disease, mastectomy in, 681-682

Craniofacial procedures, reconstruction of medial canthus  
  following, 260-261

Crawford technique, in ptosis, 181-182

Dacryocystorhinostomy, 200-203

Dermabrasion, with rhinoplasty, 164

Diplopia, following blepharoplasty, 327

Diverticula, urethral, as complication of hypospadias repair, 373-376

Dressing care, in pediatric hypospadias repair, 403

Dystopia, in orbital deformities, 226

Edema, as complication of hypospadias repair, 372

Electrical burns, to genitalia, treatment of, 440

Emphysema, subcutaneous periorbital, in orbital fractures, 242

Enophthalmos, in orbital deformities, 228-236

Epicanthus, reconstruction of, reconstruction of medial canthus following, 261, 262

Epispadias/exstrophy, aim of surgery in, 390, 391  
  correction of chordee in, 384-385  
  etiology of, 381  
  monoplasty/escutcheon repair in, 388  
  postoperative care in, 388-389  
  reconstruction of, rectus abdominis muscle and fascia flap in, 393-397  
  release of penis in, 382-384  
  secondary genital deformities of, repair of, 381-391  
    in female, 388, 389  
    in male, 381-388  
  skin coverage in, 387  
  skin grafts in, 412-414, 415  
  umbilicoplasty in, 388  
  urethroplasty in, 385-387

Epithelioid sarcoma, of penis, 489-492

Exercises, displacement, to prevent capsular contracture, 528

Exophthalmos, and ptosis, 169  
  in orbital fractures, 241, 246-247  
  in orbital neoplasm, 265

Exstrophy, abdominal closures in, 393, 394  
  female, 396  
  in older female, 393, 395

Extraocular motility, impaired, following blepharoplasty, 327

Eye(s), dry, following blepharoplasty, 322-326  
  movement of, impaired, following blepharoplasty, 327  
  protective mechanisms of, 174-175  
  surgery of, issue on, 169-340

Eyelashes, alopecia of, following blepharoplasty, 332

Eyelid(s). *See also* conditions involving.  
  anatomy of, 173  
  cicatricial lower, bowing of, following blepharoplasty, 316-322  
  malposition of, following blepharoplasty, 314-316  
  problems of, in orbital fractures, 248

Face, landmarks of, 127

lower, aesthetics of, 129

profile of, normal standards for, 128

Fasanella-Servat procedure, in ptosis, 185-186

Fat, excision of, for upper blepharoplasty, 291-292, 293, 294  
  inappropriate resection of, in blepharoplasty, 329

Festoons, following blepharoplasty, 333-334

Fissure(s), palpebral, asymmetry of, following blepharoplasty, 330

Fistula, as complication of hypospadias repair, 372-373, 374

Foam-covered mammary implants, 533-539

Foreign body reaction, to foam-covered mammary implants, 533-537, 538

Foreskin island flap, 358, 362-364

Fracture(s), nasoethmoidal, and orbital fractures, 209-223  
  orbital. *See Orbit, fractures of.*  
    zygomatic, 213-216

Free-hand central pedicle technique, for alteration of volume and skin envelope of breast, 613-625

Gels, silicone, 517-518

Gender dysphoria, appropriate patients for, definition of, 463-464  
  diagnosis of, criteria prerequisites for, 463  
  in transsexualism, 471  
  penile inversion surgery in, 464-465  
  rectosigmoid vaginoplasty in, 465-469  
  skin graft vaginoplasty in, 465  
  social scientist in, 463  
  vaginoplasty in, results of, 468, 470

Genital trauma, male, 431-442  
 avulsion, 437-439  
 burns causing, 439-440  
 diagnosis and management of, 432-433  
 in bites, 437  
 in radiation injury, 440  
 nonpenetrating, 433-434  
 penetrating, 434-437  
 treatment of, 510-511

Genitalia, male, anatomy of, 431-432  
 congenital anomalies of, 455, 457  
 cosmetic procedures on, 455-456  
 degenerative conditions of, 457  
 disorders of, personality and sexual functioning in, assessment of, 461  
 traumatic injuries of, treatment of, 510-511

Genitourinary reconstructive surgery, assessment and support of sexual functioning in, 455-462

issue on, 341-516

Glans, slough of, following hypospadias repair, 378, 379

Glansplasty, and advancement of meatus, in hypospadias repair, 346, 347

Global perforation, in blepharoplasty, loss of vision in, 314

Graft(s), materials for, in saddle deformity, 90  
 skin. See *Skin grafts*.

Grief, in penile trauma, 460

Hamartomas, congenital, 170-171

Hemorrhage. See *Bleeding*.

Hormones, in management of transsexualism, 473

Hospitalization, preparation of child for, in hypospadias repair, 399-400

Hypospadias, definition of, 341, 355  
 in pediatric patient, elective repair of, timing of, 403  
 nursing responsibilities in, 400-401  
 perioperative nursing care of, 399-404  
 postoperative care in, 403  
 theory of approach to, 399-400  
 preoperative evaluation of, 356  
 secondary, 366  
 severe penoscrotal, 358-366, 367, 368-369  
 skin grafts in, 412, 413, 414  
 surgery, Cecil Culp technique of, 342, 344  
 closure techniques in, 350, 352  
 complications of, 371-380  
 Dennis Browne technique of, 342, 343  
 flip-flap, 346-348, 349  
 free grafting in, 342  
 general considerations prior to, 371  
 history of, 341-342  
 late complications of, 373-379  
 new era of, 341-354  
 one-stage repair in, 342-346  
 perioperative complications of, 371-373  
 postoperative care in, 350-353  
 risks associated with, 371  
 Thiersch-Duplay (Byars) technique of, 341-342, 343  
 urethroplasty following, 346-350  
 urinary diversion following, 353  
 surgical classification of, 355-356, 357

Hypospadiacs, repaired, psychologic characteristics of, 402-403

Hysterectomy, in female transsexualism, 473, 475

Implants, mammary. See *Breast implant(s)*.

Impotence, evaluation by therapist in, 457-458

Peyronie's disease and, 406

Incision(s), in open rhinoplasty, 97-100

Incisal scarring, following blepharoplasty, 333

Infection(s), in foam-covered mammary implants, 537-538  
 in polyurethane-covered mammary prostheses, 582, 583, 584

involving penis and scrotum, management of, 511

postoperative, prevention of, in pediatric hypospadias repair, 403

Inflammation, in Peyronie's disease, 406

Informed consent, adjuncts, as part of medical record, 543  
 and complications and economic consequences of, 544  
 consent form for, 543-544  
 consultation for, 541-543  
 consultation outlines for, 542, 544-548  
 establishment of, 541-543  
 in aesthetic and reconstructive surgery of breast, 541-548  
 photographs for, 542-543  
 printed supplements for, 542  
 provider of information for, 544  
 slide presentations and videotapes for, 543

Jaw winking syndrome, 170

Keel graft, in post-cleft reconstruction, 77, 81

Lacrimal drainage, problems of, in orbital fractures, 248-249

Lacrimal gland, ptotic, blepharoplasty in, 295

Lacrimal sac/nasolacrimal system, trauma to, 206

Lacrimal system, dysfunction of, following blepharoplasty, 322-327  
 excretory, 195-197  
 trauma to, 197-200

Lashes, alopecia of, following blepharoplasty, 332

Levator advancement, in ptosis, 190, 191

Levator function, 174

Lids. See *Eyelid(s)*.

Lip(s), cleft, nasolabial repair and, 73-82  
 clinical evaluation of, 125-128, 129  
 revision of, in post-cleft nasal deformity, 78, 81  
 upper, consideration of, in rhinoplasty, 122

Lipectomy, cervical, suction-assisted, 143-145

Lymphatic drainage, of penis and scrotum, 507

Lymphedema, chronic, from radiotherapy, 440  
 classification of, 507-508  
 conditions simulating, 510  
 of penis and scrotum, 507-511  
 excisional therapy of, 508-509, 510  
 Gillies procedure in, 509  
 history of treatment of, 508-509  
 lymphangioplasty procedures in, 509  
 omental transposition in, 509  
 pneumatic compression in, 509-510  
 suction-assisted lipectomy in, 509

primary, 508  
 secondary, 508  
 skin grafts in, 418, 419, 420

Magnetic resonance imaging, in orbital neoplasm, 267

Malar prominences, augmentation of, 145

Mammary implants. See *Breast implant(s)*.

Mammary prosthesis, polyurethane-covered. See *Polyurethane-covered mammary prostheses*.

Mammoplasty, augmentation. *See Augmentation mammoplasty.*  
 reduction. *See Reduction mammoplasty.*  
 with short horizontal scar, 627-639  
     durability of, 634  
     modifications of, 637-639  
     results of, 630-637  
     scar in, 637  
     technique of, 627-630

Marcus-Gunn syndrome, 170

Mastectomy, capsule formation following, 717, 718  
 in female transsexualism, 473-475  
 materials and methods for, 717-718  
 potential, conditions for, 680-682  
 prophylactic, indications for, 677  
 radical, transverse abdominal island flap following, 703  
 results of, capsule formation and, 718  
 subcutaneous, creation of submuscular pocket in, 668-669  
     individualization of approach in, 669-673  
     surgical alternatives in, 667-676  
     technique for, 682-683, 684  
     versus total, 682, 684  
     with mastopexy, 671-673, 674  
     with submuscular tissue expander, 671  
     with transverse rectus abdominus reconstruction, 673, 675  
 total, indications and techniques for, 677-687  
     with immediate reconstruction, 683

Mastectomy cripple, transverse abdominal island flap for, 703-704

Mastodynia, mastectomy in, 681

Mastopexy, augmentation, central pedicle free-hand technique for, 613, 617-620  
 minus-plus, 595-600  
     advantages and disadvantages of, 599  
     decision making for, 596-597  
     discussion of, 597-599  
     technique of, 595-596  
 subcutaneous mastectomy with, 671-673, 674

Maxilla, anterior, spine of, rhinoplasty and, 117, 118, 119, 120

Meatus, advancement of, and glansplasty, in hypospadias repair, 346, 347  
 hypospadiac, 341, 342  
 retraction of, as complication of hypospadias repair, 377-379  
 stenosis of, as complication of hypospadias repair, 376-377

Medial canthus, anatomy of, 255-256  
 reconstruction of, 255-262  
     following craniofacial procedures, 260-261  
     following epicanthal reconstruction, 261, 262  
     following trauma, 258-260  
     in cancer, 256-258  
     in telecanthus, 261-262

Medication, preoperative, for rhinoplasty, 15

Meningioma, frontal, multidisciplinary approach to, 271, 272

Metaidioplasty, in female transsexualism, 481-486

Microphthalmos, congenital, 170

Microvascular procedures, in oculoplastic surgery, 283-287

Millard excision, in alar rim deformities, 151-153

Monsplasty/escutcheon repair, in epispadias/estrophy, 388

Multiple hamartoma syndrome, mastectomy in, 681-682

Muscle(s), derangement of, in orbital fractures, 243-244, 245-246  
 excision of, in blepharoplasty, 291

Mustardé "split-level approach" in ptosis, 186

Myasthenia gravis, 174

Nasal bridge index, 2-3

Nasal mucosa, deficiency of, in saddle deformity, 86

Nasal septum, deformity of, in saddle deformity, 85

Nasoethmoidal and orbital fractures, 209-223

Nasolabial angle, deformities of, rhinoplasty in, 38  
     importance of, in rhinoplasty, 115, 116

Nasolabial area, rhinoplasty and, 115-124

Nasolabial repair, cleft lip and, 73-82

Nasolacrimal disorders, and treatment of, 195-207

Nasolacrimal system, obstruction of, 196

Nasolacrimal/lacrimal sac system, trauma to, 206

Neoplasm(s), orbital. *See Orbit, neoplasm(s), of.*

Nerve(s), optic, tumor of, multidisciplinary approach to, 268, 269  
 pectoral, therapeutic manipulation of, 604

Neurectomy, pectoral, primary selective, 608  
 in subpectoral augmentation mammoplasty, 608-609

Neuroblastoma, radiated, oculoplastic surgery in, 285

Neurofibromatosis, congenital, 170-171

Neurotomy, pectoral, secondary selective, 604-608

Nose, anatomy of, 1, 3  
     clinical implication of, 7-9  
     anthropometric areas of, 2  
     augmentation, ancillary procedures in, 64-65  
     bone of, fracturing of, in basic primary rhinoplasty, 22-23  
     bridge of, 2-4  
         in basic primary rhinoplasty, 21-22  
     cartilage and/or bone of, upper lateral, deformities of, rhinoplasty in, 34-37  
     columnella of, 5, 6  
         augmentation of, 60-63, 66-71  
         considerations of, for rhinoplasty, 115-120  
         deformities of, rhinoplasty in, 37-38  
         retraction of, in saddle deformity, 86-88  
     deviated, adjunctive procedures on, 49-50  
         case histories of, 51, 52, 53, 54  
         definition of, 43  
         management of, 43-55  
             clinical analysis for, 44  
             principles of, 43-44  
         osseocartilaginous framework of, surgery on, 44-45  
         septal surgery of, 45-47  
         surgical technique in, 44-47  
     dome of, deformed cartilage of, rhinoplasty in, 40-41  
     dorsum of, 3-4  
         augmentation of, 58-60  
     inclination and angles of, 5  
     "U" strut of, dorsally deviated, correction of, 48  
         loss of support of, correction of, 48-49  
     length of, shortening of, in rhinoplasty, 17-21  
     lining of, rhinoplasty and, 159-160  
     lobule of, anatomy of, 155  
     non-Caucasian, augmentation rhinoplasty in, 57-72  
         techniques for, 57-64  
     photographic analysis of, 8  
     reconstruction of, aesthetic aspects of, 155-166  
     root area of, 1-2  
     septum of. *See Septum.*  
     soft, 4-7  
     tip of, augmentation of, 63-64, 65, 67-69  
         elevation of, in rhinoplasty, 17-21  
         in saddle deformity, 86-87

Nose (Continued)

- tip of, projection of, lack of, rhinoplasty in, 29-32
- support for, rhinoplasty and, 122-124
- thick, rigid, rhinoplasty in, 38-40
- upper lateral cartilage of, in basic primary rhinoplasty, 23-27

Nurse, responsibilities of, in pediatric hypospadias repair, 400-401

Ocular displacement, in meningioma, multidisciplinary approach to, 271, 272

Ocular motility, impaired, following blepharoplasty, 327

Oculoplastic surgery, in radiated neuroblastoma, 286

- in recurrent basal-cell carcinoma, 285
- in recurrent squamous-cell carcinoma, 284, 286
- microvascular procedures in, 283-287

Oils, silicone, 517

Ophthalmoplegia, chronic progressive external, 174

Oppenheim effect, 538

Optic nerve, tumor of, multidisciplinary approach in, 268

Orbicularis oculi muscle, anatomy of, 305-306

Orbit, anterior third of, fractures in, 212-219

- apex of, fractures of, 222
- deformities of, material for treatment of, 237-238
- post-traumatic, 225-228
- treatment of, 225-235
- types of, 225

disease processes involving, 263-264

divisions of, anatomy of, 209-211

floor of, fractures of, 220-222

- misplaced, in orbital fractures, 247-248

fractures of, and nasoethmoidal fractures, 209-223

- diagnosis of, 211-212
- early and late complications of, 239-253
- in growing child, 251
- reconstruction in, failures of, 249-251
- middle third of, fractures in, 219-222

neoplasm(s) of, categorization of, 267-268

- evaluation of, 264-268
- multidisciplinary approach to, 263-272
- cases illustrating, 268-272
- treatment of, 264

posterior third of, fractures in, 222

roof of, fractures of, 219-220

tumors of, surgical approaches to, 273-281

Orbitotomy, anterior medial, 273-275

- lateral, 275-277
- superior, 277-281

Oropharynx, squamous-cell carcinoma of, multidisciplinary approach in, 268-272

Osteotomy, lateral, in basic primary rhinoplasty, 22-23

- in skeletal anomalies of chin, 131, 133, 134, 135

Pain, fear of, in children, 402

- postoperative, management of, in pediatric hypospadias repair, 403

Palpation, in orbital neoplasm, 265-266

Palpebral fissure, asymmetry of, following blepharoplasty, 330

Parents, separation from, in pediatric hypospadias repair, 401

Pelvic exenteration, complications of, 449-450

- in cervical cancer, 449
- indications for, 449
- mortality in, 449, 450
- myocutaneous flaps in, 450
- reconstruction of, reasons for, 450
- transverse and vertical rectus abdominis myocutaneous flaps in, 451, 452

Pelvis, high defects of, correction of, with inferiorly based rectus abdominis myocutaneous flap, 449-454

Penile inversion surgery, in gender dysphoria, 464-465

Penis, amputation of, in self-mutilation, 436-437

- management following, 435-436
- replantation following, 434
- traumatic, transfer flaps in, 439

anatomy of, 405

appearance of, concern with, Peyronie's disease and, 459

avulsion injuries of, management of, 437-439

construction of, by radial arm flap, 425-430, 439

- results of, 430

degenerative conditions of, 455

degloving injuries of, treatment of, 510

epithelioid sarcoma of, 489-492

- case report of, 489-490
- pathology of, 490
- review of cases of, 489
- treatment of, 490-492

"fracture" of, 433-434

hypospadiac, 341

infections of, management of, 511

lymphatic drainage of, 507

lymphedema of, 507-511

obsessions concerning, 461

recipient area for dissection of, for flap, 426

reconstruction of, evaluation of skin grafts in, 411-424

- requirements for, 425
- skin grafts in, 420-421

release of, previous techniques for, 381-382

- technique for, 382-384

sagittal schematic of, 432

structural situation in, contributing to Peyronie's disease, 406

torsion of, following hypospadias repair, 378

transplantation of radial arm flap to, 426

trauma to, causes of, 455

- counseling in, 460
- reactions to, 460
- skin grafts in, 418, 419

Preopreputial island flaps, 358

Periorbital derangement, in orbital fractures, 245

Peyronie's disease, 405-409

- behavioral patterns in, 458-459
- concern with penile appearance and, 459
- description of, 405-406
- factors in study of men with, 459
- impotence and, 406
- incidence of, 405
- inflammation in, 406
- intercourse in, 406
- preoperative curvature of, 406, 408
- structural situation contributing to, 406
- surgery in, 406-407, 408
- preoperative explanations for, 459
- surgical technique in, 407-409
- symptoms of, 406

Phalloplasty, in female transsexualism, 475-481, 482

Physical examination, in orbital fractures, 211-212

- in orbital neoplasm, 265
- preoperative, for rhinoplasty, 15, 16

Physician, in preparation of child for hypospadias repair, 402

Pigmentation, dermal, following blepharoplasty, 334

"Pinocchio" tip, persistent, rhinoplasty in, 40-41

Polyurethane-covered mammary prostheses, 569-585

- capsular contracture in, 579
- clinical experience with, 571-572
- complications of, 582-584
- description of, 569-570

factors considered in choosing, 576  
in augmentation mammoplasty, 554  
mechanism of action of, 570

Polyurethane foam-covered breast implants, 526, 533-539

Preputial and penopreputial flaps, vascularized, indications for, 366  
use of, 356-366

Preputial vascularized island flap, 348-350, 351

Proptosis, in meningioma, multidisciplinary approach to, 271, 272

Prostheses, breast. See *Breast implant(s)*.

Pseudoptosis, causes of, 169, 170

Psychological effects, of hypospadias complications, 379

Ptosis, acquired, 171-174  
causes of, 171  
amount of, 175  
asymmetric, 176  
classification of, 169  
congenital, 170-171  
diagnosis of, 174-177  
differential diagnosis of, 169, 170  
evaluation and management of patient with, 169-184  
involutional, 172-174  
lid contour and crease in, 175  
ocular anomalies associated with, 170-171  
of lacrimal gland, blepharoplasty in, 295  
post-traumatic, 174  
surgery in, aponeurotic, 177-179, 188, 189  
choice of procedure for, 176-177  
cosmetic and functional considerations in, 185-193  
external levator resection, 179-181  
frontalis suspension, 181-184  
problems associated with, 175-176

Radiation injury, to male genitalia, 440

Reconstructive surgery, in saddle deformity, graft harvesting for, 89-90  
graft immobilization in, 90-92  
graft material for, 88  
recipient site preparation in, 90  
shaping graft for, 90  
aesthetic aspects of nasal, 155-166

Rectosigmoid vaginoplasty, in gender dysphoria, 465-469

Rectus abdominis muscle, in epispadias/exstrophy reconstruction, 393-397

Rectus abdominis myocutaneous flap(s), advantages of, 451-453  
disadvantages of, 453  
errors in technique in, 453  
inferiorly based, 450-453  
correction of high pelvic defects with, 449-454  
transverse and vertical, in pelvic exenteration, 451, 452

Reduction mammoplasty, central pedicle free-hand technique for, 617, 618  
using nipple-areola transplantation, 641-654  
complications of, 645-652  
consultation and recommendations for, 642  
history of, 641  
patient population for, 641-642  
perioperative evaluation for, 642-643  
postoperative course in, 645, 654  
technique of, 643-645, 646-648

Rehabilitation, for post-cleft nasolabial stigma, 73-82

Retromammary implantation, versus retropectoral implantation, for augmentation mammoplasty, 549-555

Retropectoral implantation, versus retromammary implantation, for augmentation mammoplasty, 549-555

Rhinoplasty, adjunctive procedures to, 160-165  
ancillary procedures and, 139-154  
and nasolabial area, 115-124  
anesthesia for, 15-17  
augmentation, for correction of non-Caucasian nose, 57-72  
basic primary, 15-27  
surgical procedure for, 17  
suturing in, 27  
taping and splinting in, 27  
consideration of columella for, 115-120, 121, 122, 123  
external skin coverage for, 156-157, 158  
future directions in, 9  
image and reality of, 1-13  
in alar deformities, 34  
in deformities of columella, 37-38  
in deformities of upper lateral cartilage and/or bone, 34-37  
in lack of tip projection, due to lack of projection of lower lateral cartilage domes, 29  
due to loss of septal support, 29-32  
in persistent "Pinocchio" tip and/or markedly deformed dome cartilage, 40-41  
in saddle deformity, 32-33  
in supratip deformity, 33-34  
in thick, rigid tip, 38-40  
issue on, 1-18  
lining of nose and, 159-160  
maxilla and, 117, 118, 119, 120-122  
nasal tip elevation and/or nasal length shortening in, 17-21  
nasolabial angle and, 115-116  
open, 95-114  
considerations for, 113-114  
disadvantages of, 113  
postoperative considerations in, 106  
results of, 106-113  
technique of, 95-106  
planning of, 155-165  
preoperative examination for, 15, 16  
preoperative medication for, 15  
reconstructive and aesthetic, differences in, 155  
secondary, 29-41  
skeletal support for, 157-159  
terminology in, 1  
tip support for, 122-124  
upper lip and, 122

Rib bone grafts, for nasal augmentation, 58-60, 61

Roentgenography, in orbital neoplasm, 266

Rubbers. See *Silicone(s), rubber*.

Saddle nasal deformity, 83-93  
analysis of, 84-88  
etiology of, 83  
rebuilding in. See *Reconstructive surgery, in saddle deformity*.  
rhinoplasty in, 32-33

Scar, short horizontal, mammoplasty with, 627-639

Schizophrenia, penile dissatisfaction in, 461

Scrotoperineal modification, following hypospadias repair, 350, 351

Scrotum, contusions of, 434, 435  
hematoma of, management of, 510-511  
infections of, management of, 511  
lymphatic drainage of, 507  
lymphedema of, 507-511  
malposition of, following hypospadias repair, 378

Scrotum (*Continued*)  
 reconstruction of, evaluation of skin grafts in, 411-424  
 trauma to, skin grafts in, 418, 419

Septoplasty, in open rhinoplasty, 103-105

Septum, deviated caudal, correction of, 47-48  
 lack of tip projection in loss of support of, rhinoplasty in, 29-32  
 morselization of, 45-47  
 perforations of, closure of, 49  
 resection of, 45  
 segmental transection of, 47  
 splinting of, 50  
 swinging-door flap procedure on, 47

Sexual functioning, in genitourinary reconstructive surgery, assessment and support of, 455-462

Sexual therapist, in genital abnormalities, assessment of patients by, 455  
 counseling by, 456-457  
 interview of patients by, 456

Silastic implant, in chin anomalies, 131-132  
 in chin augmentation, 141-142  
 in malar augmentation, 145-148

Silicone(s), 517  
 adhesive, 518-519  
 for reconstruction in saddle deformity, 88  
 gels, 517-518  
 oils, 517  
 related terms, 518  
 rubber, 518  
     elasticity of, 519-520  
     permeability of, 520  
     strength of, 519

Silicone technology, for plastic surgeon, 517-520

Skeletal derangement, in orbital fractures, 242-243, 244-245

Skeletal support elements, for rhinoplasty, 157-159

Skin, disorders of, skin grafts in, 420, 421, 422  
 excision of, in blepharoplasty, 291  
 incisions, for blepharoplasty, 291  
 markings, for blepharoplasty, 289-290, 292-293  
 rash, in polyurethane-covered mammary prostheses, 582-583, 584

Skin coverage, external, for rhinoplasty, 156-157, 158

Skin graft(s), characteristics of, compared, 422-423  
 complications of, 412  
 dermal, in Peyronie's disease, 407-409  
 evaluation of, for reconstruction of penis and scrotum, 411-424  
 full-thickness, for vaginal construction, donor sites for, 447  
     for vaginal reconstruction, 443-448  
     history of, 411, 414  
     in epispadias/exstrophy, 387  
     urethroplasty, in urethral strictures, 498-504

genitourinary conditions manageable by, 411  
 history of, 411-412  
 in chordee, 418  
 in dermatologic disorders, 420, 421, 422  
 in epispadias, exstrophy, and umbilical defects, 412-414, 415  
 in hypospadias, 412, 413, 414  
 in lymphedema, 418, 419, 420  
 in penile reconstruction, 420-421  
 in Peyronie's disease, 412, 414-417  
 in trauma to penis and scrotum, 418, 419  
 in urethral strictures, 414, 416, 417  
 in vaginal reconstruction, 421-422  
 indications for, in genitourinary problems, 422-423  
 preputial, properties of, 414

principles of use of, for genitourinary reconstruction, 423  
 split-thickness, history of, 411  
     in avulsion injuries of male genitalia, 438  
     vaginoplasty, in gender dysphoria, 465

Skin grafting, free, in hypospadias, 342

Soft tissue, deficiency of, in saddle deformity, 85

Soft-tissue derangement, in orbital fractures, 243-244

Sphincter repair, and urethroplasty, rectus muscle reconstruction in, 396

Splinting, in basic primary rhinoplasty, 27  
     of nasal septum, 50

Strabismus, and ptosis, 170

Strip island flap, 358, 364-367

Supraorbital rim, fractures of, 212-213

Supratip deformity, rhinoplasty in, 33-34

Suture(s), figure-of-eight, modified, in deviated nose, 49

Suture tunnels, following blepharoplasty, 330-332

Suturing, in basic primary rhinoplasty, 27  
     in upper blepharoplasty, 295-296

Synkinesis, 175

Taping, in basic primary rhinoplasty, 27

Telecanthus, following reconstruction of medial canthus, 261-262

Testicle, fracture of, 434, 436, 437

Transaxillary subpectoral augmentation mammoplasty, 557-568

Transsexual surgery, in genetic female, 471-487

Transsexualism, definition of, 471  
     female, acceptance of, 471-472  
     adjunctive surgical procedures in, 473-475  
     behaviors in, 472  
     change in body habitus in, 473  
     hysterectomy in, 473, 475  
     increasing incidence of, 472  
     mastectomy in, 473-475  
     patient profiles in, 472  
     phalloplasty in, 475-481, 482  
     guidelines for care in, 472-473  
     hormonal therapy in, 473  
     incidence of, 471-473  
     male, differential diagnosis of, 472

Transverse abdominal island flap, advances in, 715  
 candidates for, 703-704  
 complications of, 714, 715  
 contraindications to, 704  
 evaluation of reconstructed breast following, 714  
 flap designs, pedicle choices and flap rotation for, 705-710  
     for breast reconstruction, 703-716  
     future for, 715  
     in bilateral reconstruction, 709-710  
     in modified radical reconstructions, 707-709, 710, 711  
     patient satisfaction with, 714  
     perioperative patient management for, 704-705  
     postoperative abdominal wall competence and, 710-714  
     risk factors in, 704

Trauma, genital. See *Genital trauma*.  
 reconstruction of medial canthus following, 258-260

Tumor(s), orbital, surgical approaches to, 273-281

Tumorigenesis, foreign body, 538

Turbinate, inferior, hypertrophy of, causes of, 11  
 local anesthesia in, 12  
 nasal airway obstruction due to, diagnosis and treatment of, 11-13  
 postoperative care in, 13

postoperative packing in, 12  
surgery in, 12, 49-50  
Turbinate scissors, placement of, 12

Ultrasonography, in orbital neoplasm, 266  
in urethral stricture disease, 493-494

Umbilical defects, skin grafts in, 412-414, 415

Umbilicoplasty, in epispadias/exstrophy, 388

"Umbrella" graft, in rhinoplasty, 32, 33

Urethra, building of, following hypospadias repair, 378-379

male, anatomy of, 431  
injury to, management of, 433

new, connection of, to original urethra, 426, 427-429

strictures of, as complication of hypospadias repair, 376, 377

skin grafts in, 414, 416, 417

Urethral stricture disease, anterior, management of, 498-504

classification of, 493, 494

history of, 493

management of, 493-505

posterior, management of, 495-497

reconstruction for, 493

treatment of, 494-495

ultrasound in, 493-494

Urethroplasty, and sphincter repair, rectus muscle reconstruction in, 396

flaps, vascularized, 355-370  
advantages and limitations of, 366-370  
materials and methods for, 366

following hypospadias repair, 346-350

full-thickness preputial graft, 348, 350

full-thickness skin graft, in urethral strictures, 498-504  
in epispadias/exstrophy, 385-387

Urethrotomy, internal, in anterior urethral strictures, 498

Urinary diversion, postoperative pediatric hypospadias repair, 403

Urinary stream, irregularities, following hypospadias repair, 377-378

Vagina, congenital absence of, 443, 444  
age for treatment of, 443-444  
diagnosis of, 444

postoperative care in, 445-446

results of surgery in, 446-448

surgical technique in, 444, 445

reconstruction of, full-thickness skin grafts for, 443-448  
history of, 443-444  
skin grafts in, 421-422

Vaginoplasty, for gender confirmation, 463-470

preoperative assessment for, 469

rectosigmoid, in gender dysphoria, 465-469

sigmoid, safety of, 469

skin graft, in gender dysphoria, 465

Vision, loss of, following hemorrhage in blepharoplasty, 309-314  
from global perforation in blepharoplasty, 314  
in orbital fractures, 239-241

Vulvectomy, radical, and lymph node dissection, in vulvar defects, 450

Weir excision, modified, in alar rim deformities, 149-151, 152, 153-154

"Witch's" chin, 136

Z-plasty(ies), in epispadias/exstrophy, 387

Zygomatic fractures, 213-216
